## 1. Executive Summary

BaseCrew (BCREW) is a community-driven digital asset on the Base network focused on transparency, fair participation, and long-term community development. The token supply is fixed, with no minting functionality. The project is designed to be simple and verifiable on-chain, with clear allocations and publicly accessible references for verification.

## 2. Market Context and Vision

The meme token sector moves quickly and often suffers from unclear allocations, inconsistent communication, and weak long-term alignment. BaseCrew prioritises clarity and responsible community growth through publicly stated token structure, verifiable on-chain information, and locked allocations where applicable.

## 3. Token Overview

**Token Name:** BaseCrew
**Symbol:** BCREW
**Blockchain:** Base
**Standard:** ERC-20
**Decimals:** 18
**Total Supply:** 10,000,000,000 (fixed)

The smart contract is intended to contain no mint functionality, no transaction tax mechanics, and no blacklist controls. Participants are encouraged to verify these properties directly via the contract and third-party verification tools.

## 4. Tokenomics

| Allocation | Percentage | Notes |
|---|---|---|
| Team Allocation | 13% | Locked allocation |
| Ecosystem / Growth Vault | 22% | Locked allocation |
| Liquidity Allocation | 65% | Locked on TeamFinance (liquidity support allocation) |
| Initial Liquidity Seed | Approx. 7% | Paired with ETH at launch |

Approximately 7% of total supply was paired with ETH at launch to establish initial market liquidity. The broader 65% liquidity allocation is locked on TeamFinance and may be used for long-term liquidity support only in accordance with the lock conditions shown on TeamFinance.

## 5. Locks and Proofs

All locks are live and can be viewed through the official TeamFinance token page. The TeamFinance page lists each individual lock, including lock terms and associated transaction details.
